

# FRAMEWORK FOR THE ANNUAL REPORT OF THE CHILDREN'S HEALTH INSURANCE PLANS UNDER TITLE XXI OF THE SOCIAL SECURITY ACT

## Preamble

Section 2108(a) and Section 2108(e) of the Social Security Act (the Act) provide that each state and territory\* must assess the operation of its state child health plan in each federal fiscal year and report to the Secretary, by January 1 following the end of the federal fiscal year, on the results of the assessment. In addition, this section of the Act provides that the state must assess the progress made in reducing the number of uncovered, low-income children. The state is out of compliance with CHIP statute and regulations if the report is not submitted by January 1. The state is also out of compliance if any section of this report relevant to the state's program is incomplete.

The framework is designed to:

- Recognize the **diversity** of state approaches to CHIP and allow states **flexibility** to highlight key accomplishments and progress of their CHIP programs, **AND**
- Provide **consistency** across states in the structure, content, and format of the report, **AND**
- Build on data **already collected** by CMS quarterly enrollment and expenditure reports, **AND**
- Enhance **accessibility** of information to stakeholders on the achievements under Title XXI

The CHIP Annual Report Template System (CARTS) is organized as follows:

- Section I: Snapshot of CHIP Programs and Changes
- Section II: Program's Performance Measurement and Progress
- Section III: Assessment of State Plan and Program Operation
- Section IV: Program Financing for State Plan
- Section V: Program Challenges and Accomplishments

\* - When "state" is referenced throughout this template it is defined as either a state or a territory.

**\*Disclosure.** According to the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless it displays a valid OMB control number. The valid OMB control number for this information collection is 0938-1148. The time required to complete this information collection is estimated to average 40 hours per response, including the time to review instructions, search existing data resources, gather the data needed, and complete and review the information collection. If you have any comments concerning the accuracy of the time estimate(s) or suggestions for improving this form, write to: CMS, 7500 Security Blvd., Attn: PRA Reports Clearance Officer, Mail Stop C4-26-05, Baltimore, Maryland 21244-1850.

**DO NOT CERTIFY YOUR REPORT UNTIL ALL SECTIONS ARE COMPLETE.**

State/Territory: OR

Name of State/Territory

The following Annual Report is submitted in compliance with Title XXI of the Social Security Act (Section 2108(a) and Section 2108(e)).

Signature: Jesse Anderson

CHIP Program Name(s): All, Oregon

CHIP Program Type:

- CHIP Medicaid Expansion Only
- Separate Child Health Program Only
- Combination of the above

Reporting Period: 2019 **(Note: Federal Fiscal Year 2019 starts 10/1/2018 and ends 9/30/2019)**

Contact Person/Title: Jesse Anderson/ State Plan manager

Address: 500 Summer st NE

City: Salem State: OR Zip: 97301

Phone: 503-945-6958 Fax: \_\_\_\_\_

Email: jesse.anderson@state.or.us

Submission Date: 12/16/2019

(Due to your CMS Regional Contact and Central Office Project Officer by January 1st of each year)

## Section I. Snapshot of CHIP Program and Changes

- 1) To provide a summary at-a-glance of your CHIP program, please provide the following information. If you would like to make any comments on your responses, please explain in the narrative section below this table.

Provide an assurance that your state’s CHIP program eligibility criteria as set forth in the CHIP state plan in section 4, inclusive of PDF pages related to Modified Adjusted Gross Income eligibility, is accurate as of the date of this report.

Please note that the numbers in brackets, e.g., [500] are character limits in the Children’s Health Insurance Program (CHIP) Annual Report Template System (CARTS). You will not be able to enter responses with characters greater than the limit indicated in the brackets.

### CHIP Medicaid Expansion Program

Upper % of FPL (federal poverty level) fields are defined as Up to and Including

Does your program require premiums or an enrollment fee?

- NO  
 YES  
 N/A

Enrollment fee amount:

Premium fee amount:

If premiums are tiered by FPL, please breakout by FPL.

Premium Amount From (\$)	Premium Amount To (\$)	From % of FPL	Up to % of FPL

Yearly Maximum Premium Amount per Family: \$

If premiums are tiered by FPL, please breakout by FPL.

Premium Amount From (\$)	Premium Amount To (\$)	From % of FPL	Up to % of FPL

Premium Amount From (\$)	Premium Amount To (\$)	From % of FPL	Up to % of FPL

If yes, briefly explain fee structure: **[500]**

Which delivery system(s) does your program use?

- Managed Care
- Primary Care Case Management
- Fee for Service

Please describe which groups receive which delivery system: **[500]**

### Separate Child Health Program

Upper % of FPL (federal poverty level) fields are defined as Up to and Including

Does your program require premiums or an enrollment fee?

- NO
- YES
- N/A

Enrollment fee amount:

Premium fee amount:

If premiums are tiered by FPL, please breakout by FPL.

Premium Amount From (\$)	Premium Amount To (\$)	From % of FPL	Up to % of FPL

Yearly Maximum Premium Amount per Family: \$

If premiums are tiered by FPL, please breakout by FPL.

Premium Amount From (\$)	Premium Amount To (\$)	From % of FPL	Up to % of FPL

If yes, briefly explain fee structure: **[500]**

Which delivery system(s) does your program use?

- Managed Care
- Primary Care Case Management
- Fee for Service

Please describe which groups receive which delivery system: **[500]**

All counties have mandatory enrollment into a MCO (aka CCO). All populations can be enrolled in a MCO/CCO but certain members, such as American Indians/Alaska Natives must opt into a MCO whereas other population groups are automatically enrolled. Some members are served via FFS due to their medical conditions, access or continuity of care or are part of the conception to birth population which are FFS only.

2) Have you made changes to any of the following policy or program areas during the reporting period? Please indicate “yes” or “no change” by marking the appropriate column.

	Medicaid Expansion CHIP Program			Separate Child Health Program		
	Yes	No Change	N/A	Yes	No Change	N/A
a) Applicant and enrollee protections (e.g., changed from the Medicaid Fair Hearing Process to State Law)	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
b) Application	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>

## Section II Program's Performance Measurement and Progress

This section consists of two subsections that gather information about the CHIP and/or Medicaid program. Section IIA captures your enrollment progress as well as changes in the number and/or rate of uninsured children in your state. Section IIB captures progress towards meeting your state's general strategic objectives and performance goals.

---

### Section IIA: Enrollment And Uninsured Data

---

1. The information in the table below is the Unduplicated Number of Children Ever Enrolled in CHIP in your state for the two most recent reporting periods. The enrollment numbers reported below should correspond to line 7 (Unduplicated Number Ever Enrolled Year) in your state's 4<sup>th</sup> quarter data report (submitted in October) in the CHIP Statistical Enrollment Data System (SEDS). The percent change column reflects the percent change in enrollment over the two-year period. If the percent change exceeds 10 percent (increase or decrease), please explain in letter A below any factors that may account for these changes (such as decreases due to elimination of outreach or increases due to program expansions). This information will be filled in automatically by CARTS through a link to SEDS. Please wait until you have an enrollment number from SEDS before you complete this response. If the information displayed in the table below is inaccurate, please make any needed updates to the data in SEDS and then refresh this page in CARTS to reflect the updated data.

Program	FFY 2018	FFY 2019	Percent change FFY 2018-2019
CHIP Medicaid Expansion Program	64108	62838	-1.98
Separate Child Health Program	125510	134146	6.88

- A. Please explain any factors that may account for enrollment increases or decreases exceeding 10 percent. **[7500]**
2. The tables below show trends in the number and rate of uninsured children in your state. Three year averages in Table 1 are based on the Current Population Survey. The single year estimates in Table 2 are based on the American Community Survey (ACS). CARTS will fill in the single year estimates automatically, and significant changes are denoted with an asterisk (\*). If your state uses an alternate data source and/or methodology for measuring change in the number and/or rate of uninsured children, please explain in Question #3.

Table 1: Number and percent of uninsured children under age 19 below 200 percent of poverty, Current Population Survey

Period	Uninsured Children Under Age 19 Below 200 Percent of Poverty		Uninsured Children Under Age 19 Below 200 Percent of Poverty as a Percent of Total Children Under Age 19	
	Number (In Thousands)	Std. Error	Rate	Std. Error
1996 - 1998	80	17.0	9.2	2.0
1998 - 2000	81	17.2	8.9	1.8
2000 - 2002	66	11.3	7.4	1.2
2002 - 2004	62	10.9	7.0	1.2
2003 - 2005	63	12.6	7.0	1.4
2004 - 2006	69	14.0	7.6	1.5
2005 - 2007	69	14.0	7.6	1.5
2006 - 2008	70	14.0	7.8	1.5
2007 - 2009	67	14.0	7.3	1.5
2008 - 2010	67	9.0	7.5	1.0
2009 - 2011	56	6.0	6.3	.7
2010 - 2012	44	6.0	4.9	0

Table 2: Number and percent of uninsured children under age 19 below 200 percent of poverty, American Community Survey

Period	Uninsured Children Under Age 19 Below 200 Percent of Poverty		Uninsured Children Under Age 19 Below 200 Percent of Poverty as a Percent of Total Children Under Age 19	
	Number (In Thousands)	Margin of Error	Rate	Margin of Error
2013	31	4.0	3.5	.5
2014	27	4.0	3.0	.4
2015	18	3.0	2.1	.3
2016	15	3.0	1.7	.3
2017	18	3.0	2.0	.3
2018	17	3.0	1.9	.4
Percent change 2017 vs. 2018	-5.6%	N/A	-5.0%	N/A

A. Please explain any activities or factors that may account for increases or decreases in your number and/or rate of uninsured children. [7500]

B. Please note any comments here concerning ACS data limitations that may affect the reliability or precision of these estimates. [7500]

3. Please indicate by checking the box below whether your state has an alternate data source and/or methodology for measuring the change in the number and/or rate of uninsured children.

- Yes (please report your data in the table below)  
 No (skip to Question #4)

Please report your alternate data in the table below. Data are required for two or more points in time to demonstrate change (or lack of change). Please be as specific and detailed as possible about the method used to measure progress toward covering the uninsured.

Topic	Description
Data source(s)	
Reporting period (2 or more points in time)	
Methodology	
Population (Please include ages and income levels)	
Sample sizes	
Number and/or rate for two or more points in time	
Statistical significance of results	

A. Please explain why your state chose to adopt a different methodology to measure changes in the number and/or rate of uninsured children.

**[7500]**

B. What is your state's assessment of the reliability of the estimate? Please provide standard errors, confidence intervals, and/or p-values if available.

**[7500]**

C. What are the limitations of the data or estimation methodology?

**[7500]**

D. How does your state use this alternate data source in CHIP program planning?

**[7500]**

Enter any Narrative text related to Section IIA below. **[7500]**

## Section IIB: State Strategic Objectives And Performance Goals

This subsection gathers information on your state's general strategic objectives, performance goals, performance measures and progress towards meeting goals, as specified in your CHIP state plan. (If your goals reported in the annual report now differ from Section 9 of your CHIP state plan, please indicate how they differ in "Other Comments on Measure." Also, the state plan should be amended to reconcile these differences). The format of this section provides your state with an opportunity to track progress over time. This section contains templates for reporting performance measurement data for each of five categories of strategic objectives, related to:

- Reducing the number of uninsured children
- CHIP enrollment
- Medicaid enrollment
- Increasing access to care
- Use of preventative care (immunizations, well child care)

Please report performance measurement data for the three most recent years for which data are available (to the extent that data are available). In the first two columns, data from the previous two years' annual reports (FFY 2017 and FFY 2018) will be populated with data from previously reported data in CARTS. If you reported data in the two previous years' reports and you want to update/change the data, please enter that data. If you reported no data for either of those two years, but you now have data available for them, please enter the data. In the third column, please report the most recent data available at the time you are submitting the current annual report (FFY 2019).

In this section, the term performance measure is used to refer to any data your state provides as evidence towards a particular goal within a strategic objective. For the purpose of this section, "objectives" refer to the five broad categories listed above, while "goals" are state-specific, and should be listed in the appropriate subsections within the space provided for each objective.

**NOTES: Please do not reference attachments in this section. If details about a particular measure are located in an attachment, please summarize the relevant information from the attachment in the space provided for each measure.**

**In addition, please do not report the same data that were reported for Child Core Set reporting. The intent of this section is to capture goals and measures that your state did not report elsewhere. As a reminder, Child Core Set reporting migrated to MACPRO in December 2015. Historical data are still available for viewing in CARTS.**

Additional instructions for completing each row of the table are provided below.

### A. Goal:

For each objective, space has been provided to report up to three goals. Use this section to provide a brief description of each goal you are reporting within a given strategic objective. **All new goals should include a direction and a target. For clarification only, an example goal would be:** "Increase (direction) by 5 percent (target) the number of CHIP beneficiaries who turned 13 years old during the measurement year who had a second dose of MMR, three hepatitis B vaccinations and one varicella vaccination by their 13th birthday."

### B. Type of Goal:

For each goal you are reporting within a given strategic objective, please indicate the type of goal, as follows:

- **New/revised:** Check this box if you have revised or added a goal. Please explain how and why the goal was revised.
- **Continuing:** Check this box if the goal you are reporting is the same one you have reported in previous annual reports.
- **Discontinued:** Check this box if you have met your goal and/or are discontinuing a goal. Please explain why the goal was discontinued.

### **C. Status of Data Reported:**

Please indicate the status of the data you are reporting for each goal, as follows:

- **Provisional:** Check this box if you are reporting performance measure data for a goal, but the data are currently being modified, verified, or may change in any other way before you finalize them for FFY 2019.

**Explanation of Provisional Data** – When the value of the Status of Data Reported field is selected as “Provisional”, the state must specify why the data are provisional and when the state expects the data will be final.

- **Final:** Check this box if the data you are reporting are considered final for FFY 2019.
- **Same data as reported in a previous year’s annual report:** Check this box if the data you are reporting are the same data that your state reported for the goal in another annual report. Indicate in which year’s annual report you previously reported the data.

### **D. Measurement Specification:**

This section is included for only two of the objectives— objectives related to increasing access to care, and objectives related to use of preventative care—because these are the two objectives for which states may report using the HEDIS® measurement specification. In this section, for each goal, please indicate the measurement specification used to calculate your performance measure data (i.e., were the measures calculated using the HEDIS® specifications or some other method unrelated to HEDIS®).

Please indicate whether the measure is based on HEDIS® technical specifications or another source. If HEDIS® is selected, the HEDIS® Version field must be completed. If “Other” measurement specification is selected, the explanation field must be completed.

#### **HEDIS® Version:**

Please specify HEDIS® Version (example 2016). This field must be completed only when a user selects the HEDIS® measurement specification.

#### **“Other” measurement specification explanation:**

If “Other”, measurement specification is selected, please complete the explanation of the “Other” measurement specification. The explanation field must be completed when “Other” measurement specification has been selected.

### **E. Data Source:**

For each performance measure, please indicate the source of data. The categories provided in this section vary by objective. For the objectives related to reducing the number of uninsured children and CHIP or Medicaid enrollment, please indicate whether you have used eligibility/enrollment data, survey data (specify the survey used), or other source (specify the other source). For the objectives related to access to care and use of preventative care, please indicate whether you used administrative data (claims) (specify the kind of administrative data used), hybrid data (claims and medical records) (specify how the two were used to create the data source), survey data (specify the survey used), or other source (specify the other source). In all cases, if another data source was used, please explain the source.

## **F. Definition of Population Included in Measure:**

Numerator: Please indicate the definition of the population included in the numerator for each measure (such as the number of visits required for inclusion, e.g., one or more visits in the past year).

Denominator: Please indicate the definition of the population included in the denominator for each measure.

For measures related to increasing access to care and use of preventative care, please

- Check one box to indicate whether the data are for the CHIP population only, or include both CHIP and Medicaid (Title XIX) children combined.
- If the denominator reported is not fully representative of the population defined above (the CHIP population only, or the CHIP and Medicaid (Title XIX) populations combined), please further define the denominator. For example, denominator includes only children enrolled in managed care in certain counties, technological limitations preventing reporting on the full population defined, etc.). Please report information on exclusions in the definition of the denominator (including the proportion of children excluded). The provision of this information is important and will provide CMS with a context so that comparability of denominators across the states and over time can occur.

## **G. Deviations from Measure Specification**

For the measures related to increasing access to care and use of preventative care.

If the data provided for a measure deviates from the measure specification, please select the type(s) of measure specification deviation. The types of deviation parallel the measure specification categories for each measure. Each type of deviation is accompanied by a comment field that states must use to explain in greater detail or further specify the deviation when a deviation(s) from a measure is selected.

The five types (and examples) of deviations are:

- Year of Data (e.g., partial year),
- Data Source (e.g., use of different data sources among health plans or delivery systems),
- Numerator (e.g., coding issues),
- Denominator (e.g., exclusion of MCOs, different age groups, definition of continuous enrollment),
- Other.

When one or more of the types are selected, states are required to provide an explanation.

Please report the year of data for each performance measure. The year (or months) should correspond to the period in which enrollment or utilization took place. Do not report the year in which data were collected for the measure, or the version of HEDIS® used to calculate the measure, both of which may be different from the period corresponding to enrollment or utilization of services.

## **H. Date Range: available for 2019 CARTS reporting period.**

Please define the date range for the reporting period based on the “From” time period as the month and year which corresponds to the beginning period in which utilization took place and please report the “To” time period as the month and year which corresponds to the end period in which utilization took place. Do not report the year in which data were collected for the measure, or the version of HEDIS® used to calculate the measure, both of which may be different from the period corresponding to utilization of services.

## **I. Performance Measurement Data (HEDIS® or Other):**

In this section, please report the numerators and denominators, rates for each measure (or component). The template provides two sections for entering the performance measurement data, depending on

whether you are reporting using HEDIS® or other methodologies. The form fields have been set up to facilitate entering numerators and denominators for each measure. If the form fields do not give you enough space to fully report on the measure, please use the “additional notes” section.

The preferred method is to calculate a “weighted rate” by summing the numerators and denominators across plans, and then deriving a single state-level rate based on the ratio of the numerator to the denominator). The reporting unit for each measure is the state as a whole. If states calculate rates for multiple reporting units (e.g., individual health plans, different health care delivery systems), states must aggregate data from all these sources into one state rate before reporting the data to CMS. In the situation where a state combines data across multiple reporting units, all or some of which use the hybrid method to calculate the rates, the state should enter zeroes in the “Numerator” and “Denominator” fields. In these cases, it should report the state-level rate in the “Rate” field and, when possible, include individual reporting unit numerators, denominators, and rates in the field labeled “Additional Notes on Measure,” along with a description of the method used to derive the state-level rate.

## **J. Explanation of Progress:**

The intent of this section is to allow your state to highlight progress and describe any quality-improvement activities that may have contributed to your progress. Any quality-improvement activity described should involve the CHIP program, benefit CHIP enrollees, and relate to the performance measure and your progress. An example of a quality-improvement activity is a state-wide initiative to inform individual families directly of their children’s immunization status with the goal of increasing immunization rates. CHIP would either be the primary lead or substantially involved in the project. If improvement has not occurred over time, this section can be used to discuss potential reasons for why progress was not seen and to describe future quality-improvement plans. In this section, your state is also asked to set annual performance objectives for FFY 2020, 2021 and 2022. Based on your recent performance on the measure (from FFY 2017 through 2019), use a combination of expert opinion and “best guesses” to set objectives for the next three years. Please explain your rationale for setting these objectives. For example, if your rate has been increasing by 3 or 4 percentage points per year, you might project future increases at a similar rate. On the other hand, if your rate has been stable over time, you might set a target that projects a small increase over time. If the rate has been fluctuating over time, you might look more closely at the data to ensure that the fluctuations are not an artifact of the data or the methods used to construct a rate. You might set an initial target that is an average of the recent rates, with slight increases in subsequent years. In future annual reports, you will be asked to comment on how your actual performance compares to the objective your state set for the year, as well as any quality-improvement activities that have helped or could help your state meet future objectives.

## **K. Other Comments on Measure:**

Please use this section to provide any other comments on the measure, such as data limitations, plans to report on a measure in the future, or differences between performance measures reported here and those discussed in Section 9 of the CHIP state plan.

**Objectives Related to Reducing the Number of Uninsured Children (Do not report data that was reported in Section IIA, Questions 2 and 3)**

FFY 2017	FFY 2018	FFY 2019
<p><b>Goal #1 (Describe)</b> Reach and enroll eligible children into a public sponsored health insurance program</p>	<p><b>Goal #1 (Describe)</b> Research and enroll eligible children into a public sponsored health insurance program.</p>	<p><b>Goal #1 (Describe)</b> Reach and enroll eligible children into a public sponsored health insurance program</p>

<p><b>Performance Measurement Data:</b>                      Described what is being measured:                      Point in time estimated children uninsured for the year indicated:                       Numerator: 26717                      Denominator: 909574                      Rate: 2.9</p>	<p><b>Performance Measurement Data:</b>                      Described what is being measured:                      Point in time estimated children uninsured for the year indicated: Uninsured estimates                       Numerator: 26717                      Denominator: 909574                      Rate: 2.9</p>	<p><b>Performance Measurement Data:</b>                      Described what is being measured:                      Point-in-time estimate of the number and percent of children without health insurance: Uninsured estimates                       Numerator: 26454                      Denominator: 930831                      Rate: 2.8</p>

FFY 2017	FFY 2018	FFY 2019
<p><b>Additional notes on measure:</b> We have more questions that help determine a person’s health insurance coverage status and coverage type. We changed from address based sampling to a cell-phone based sampling methodology which also includes a portion of landline phone numbers. The weighting methods were enhanced in 2017, includes detailed administrative data from the Oregon Health Plan and the private insurance market. We have better geographic representation in the data. More data is available at the single-county level.</p>	<p><b>Additional notes on measure:</b> OHIS is only fielded once every two years  Key Methodology changes in OHIS 2017:  new survey vendor for OHIS  questionnaire restructured.  changed from address-based sampling to a cell-phone based sampling.  More data is available at the single-county level.</p>	<p><b>Additional notes on measure:</b> The OHIS is fielded in odd-numbered years. OHA fielded the OHIS in 2019</p>
<p><b>Explanation of Progress:</b></p> <p><b>How did your performance in 2017 compare with the Annual Performance Objective documented in your 2016 Annual Report?</b></p> <p><b>What quality improvement activities that involve the CHIP program and benefit CHIP enrollees help enhance your ability to report on this measure, improve your results for this measure, or make progress toward your goal?</b></p>	<p><b>Explanation of Progress:</b></p> <p><b>How did your performance in 2018 compare with the Annual Performance Objective documented in your 2017 Annual Report?</b></p> <p><b>What quality improvement activities that involve the CHIP program and benefit CHIP enrollees help enhance your ability to report on this measure, improve your results for this measure, or make progress toward your goal?</b></p>	<p><b>Explanation of Progress:</b></p> <p><b>How did your performance in 2019 compare with the Annual Performance Objective documented in your 2018 Annual Report?</b></p> <p><b>What quality improvement activities that involve the CHIP program and benefit CHIP enrollees help enhance your ability to report on this measure, improve your results for this measure, or make progress toward your goal?</b></p>

1. What other strategies does your state use to measure and report on access to, quality, or outcomes of care received by your CHIP population? What have you found? **[7500]**

Metrics and quality measures are used by the Oregon Health Authority to determine whether Coordinated Care Organizations (CCOs) are effectively and adequately improving care, making quality care accessible, eliminating health disparities, and controlling costs for the populations that they serve.

The Metrics and Scoring Committee was established in 2012 by Senate Bill 1580 for the purpose of recommending outcomes and quality measures for Coordinated Care Organizations (CCOs). The nine members are appointed by the Director of the Oregon Health Authority and serve two-year terms. Membership must include:

- Three members at large;
- Three individuals with expertise in health outcomes measures; and
- Three representatives of coordinated care organizations.

The committee is responsible for identifying outcome and quality measures, including measures of outcome and quality for ambulatory care, chemical dependency and mental health treatment, oral health care and all other health services provided by CCOs.

2. What strategies does your CHIP program have for future measurement and reporting on access to, quality, or outcomes of care received by your CHIP population? When will data be available? **[7500]**

Metric developed by the metrics and scoring committee. information is available at <https://www.oregon.gov/oha/HPA/ANALYTICS/Pages/Metrics-Scoring-Committee.aspx>

3. Have you conducted any focused quality studies on your CHIP population, e.g., adolescents, attention deficit disorder, substance abuse, special health care needs or other emerging health care needs? What have you found? **[7500]**

none specific to CHIP only.

4. Please attach any additional studies, analyses or other documents addressing outreach, enrollment, access, quality, utilization, costs, satisfaction, or other aspects of your CHIP program's performance. Please include any analyses or descriptions of any efforts designed to reduce the number of uncovered children in the state through a state health insurance connector program or support for innovative private health coverage initiatives. **[7500]**

Enter any Narrative text related to Section IIB below. [7500]

## Section III: Assessment of State Plan and Program Operation

### Please reference and summarize attachments that are relevant to specific questions

Please note that the numbers in brackets, e.g., [7500] are character limits in the CHIP Annual Report Template System (CARTS). You will not be able to enter responses with characters greater than the limit indicated in the brackets.

### Section IIIA: Outreach

1. How have you redirected/changed your outreach strategies during the reporting period? **[7500]**

The Healthy Kids/Oregon Health Plan (OHP) for kids program now part of the Oregon Health Authority's (OHA) Community Partner Outreach Program (CPOP) has been a huge success for Oregon families. Since its implementation in 2009, 229,500 Oregon children have gained access to comprehensive health care, including routine and preventive care, while their families have experienced significantly less medical debt and financial strain. Oregon is leading the nation in covering kids thanks to expanded eligibility and aggressive outreach, which ensures that all families can easily access health coverage for their children. Continuing these efforts is critical to maintaining the state's success in covering children as well as extending that success to health coverage for all Oregonians.

The goal of OHA's Community Partner Outreach Program continues to be the same as Healthy Kids/OHP for kids, to reduce the number of uninsured kids and teens, and ensure that at least 95% of Oregon children have access to affordable health coverage. Before the expansion of Healthy Kids in 2009, it was estimated that 11.3% of Oregon kids were uninsured based on analysis of the American Community Survey. Two years later, a statewide population survey conducted by the Oregon Health Authority found that the uninsured rate among kids was 5.6% (compared to 21% among adults).

The first step for Oregon was to create an office dedicated to ensuring the success of the Healthy Kids/OHP for kids program. In turn, the Healthy Kids office and staff implemented a multi-faceted approach to outreach, marketing, and enrollment assistance. After six years of the inception of the Healthy Kids/OHP for kids Program and with the new structure provided by the CPOP, we continue to engage numerous community-based partners that are supported by Regional Outreach Coordinators. It dedicated full-time coordinators to respectively focus on Community Engagement Coordinator and a Provider Campaign Coordinator to engage medical providers in the effort. It implemented a grassroots marketing and earned media campaign, with a special focus on reaching minority and underserved populations. Although Healthy Kids/OHP for kids was not a stand-alone program any longer, it continues to be a well established "brand" coverage for kids and continues to focus to modernize the state's policies and procedures to remove administrative barriers to enrollment.

2. What methods have you found most effective in reaching low-income, uninsured children (e.g., T.V., school outreach, word-of-mouth)? How have you measured effectiveness? **[7500]**

The Community Partner Outreach Program succeeded by coupling expansion of eligibility and simplified enrollment procedures with aggressive grassroots marketing and outreach initiatives. First, the community partner program awarded grants, ranging from \$25,000 to \$200,000 to community-based organizations to conduct outreach and provide assistance to families in applying for coverage.

The CPOP also invites other types of organizations to be part of its robust community-based network. Healthcare providers can become outreach sites and receive training certifying them to provide application assistance. Additionally, other organizations signed up to enter in Volunteer agreements with the Oregon Health Authority to provide application assistance, following the same training and certification process to provide application assistance on a voluntary basis. Moreover, other types of community-based organizations can simply help spread the word about Healthy Kids/OHP for kids and medical coverage by referring families to the various application assistance sites. This community-based approach helped the CPOP create a strong and diverse network of partners in every county in the state, spanning from schools to health care centers to community action agencies.

With a robust network of partners operating on the ground like field staff, the CPOP was also able to greatly expand its reach. Since June 2009, partners have distributed materials (fliers, newsletters, brochures) in all 36 counties. Partners sent more than 500,000 back-to-school fliers home in kids' backpacks in all 197 Oregon school districts. More than 75% of those fliers included contact information for a local partner to assist families with the application. During the back-to-school drive in 2014, the outreach grantees collaborated with more than 1,000 schools in 29 counties, building relationships with the staff and creating referral networks for uninsured families.

All our partners play a significant role in reaching people across the state and providing them not only with information about affordable, accessible coverage and care but also on how to maintain health coverage beyond the initial 12-month enrollment. However, these relationships were not cultivated overnight. It took time to build networks in communities and to coordinate these efforts. We credit three essential strategies to their plan, which include:

- Building an effective education, outreach and enrollment infrastructure
- Using multiple channels and vehicles to reach the uninsured
- Providing comprehensive technical assistance to outreach and enrollment “partners.”

The Community Partner Outreach Program nurtured and built local partnerships across the state to ensure partners were engaged; allowing for families to have consistent statewide messages about the program reinforced by trusted and familiar sources in their schools, their health centers, through their employers, or local nonprofit organizations. As a result, enrollment numbers increased across every demographic throughout every county in the state. Today, most counties have at least one entity available to provide application assistance and answer questions about the medical coverage offered through the Healthy Kids Program/OHP for kids.

3. Which of the methods described in Question 2 would you consider a best practice(s)? **[7500]**

The most important practice in our state has been having one office responsible for running the outreach and marketing campaign and accountable for achieving the enrollment goals. The Community Partner Outreach Program continuous effort of strengthening partnerships with community-based organizations and collaborations among agencies is one of those best practices.

4. Is your state targeting outreach to specific populations (e.g., minorities, immigrants, and children living in rural areas)?

- Yes  
 No

Have these efforts been successful, and how have you measured effectiveness? **[7500]**

Yes, these efforts have been successful. We've measured success on enrollment gains by county and race/ethnicity (enrollment for a number of sub-populations has increased at a much higher rate than the overall population or the children who have been identified as white/Caucasian). We also gauge our success based on feedback from community partners from these specific communities

5. What percentage of children below 200 percent of the federal poverty level (FPL) who are eligible for Medicaid or CHIP have been enrolled in those programs? **[5]** 95.2

(Identify the data source used). **[7500]**

A sample population was developed using American Community Survey (ACS) health insurance data from 2008-2017. This population included individuals that were uninsured or had public health insurance coverage. From this population, the following subgroups were removed (excluded or filtered out of the sample):

- Individuals age 19 and above
  
- Non-citizens
  
- Individuals living in institutional group quarters

This created the population to match the criteria of the question – children (age 18 and under), at or below 200% of FPL, i.e., that are eligible for Medicaid or CHIP.

The number of children in this population that were eligible for and enrolled in Medicaid or CHIP was divided by the total number of children that were eligible for Medicaid or CHIP (enrolled and not enrolled). Adjusted frequencies and percentages were calculated for this defined population.

Enter any Narrative text related to Section IIIA below. **[7500]**

The Community Partner Outreach Program's (CPOP) original mandate was to create and maintain a network of community partner organizations across Oregon to assist vulnerable populations with culturally and linguistically appropriate public health coverage enrollment assistance. This mandate now resides within the Oregon Health Insurance Marketplace. However, the Oregon Health Authority understands the value to work with and for the community and decided to keep funding and supporting the efforts of our network of Community Partners through the Community Partner Outreach Program. Our outreach strategies show the best way to engage Oregonians in enrollment and utilization of services continues to be on the one-on-one basis. Our work remains to be guided by our program mission of "Engage communities across Oregon to advance an equitable, responsive health system" with our vision on mind of building "A strong, healthy Oregon."

## Section IIIB: Substitution of Coverage (Crowd-out)

Please answer the following questions as they apply to your state's program (some questions are not applicable to Medicaid expansion programs.) Medicaid expansion states should complete applicable responses and indicate those questions that are non-applicable with N/A. Please include percent calculations in your responses when applicable and requested.

1. Does your separate CHIP program require a child to be uninsured for a minimum amount of time prior to enrollment (waiting period)?

- No  
 Yes  
 N/A

If no, skip to question 5. If yes, answer questions 2-4:

2. How many months does your program require a child to be uninsured prior to enrollment?
3. To which groups (including FPL levels) does the period of uninsurance apply? **[1000]**
4. List all exemptions to imposing the period of uninsurance **[1000]**

**Please answer questions 5, 7, 8 (and 6 and 9 if applicable) regardless of the response the state provided to question 1.**

5. Does your program match prospective enrollees to a database that details private insurance status?

- No  
 Yes  
 N/A

6. If answered yes to question 5, what database? **[1000]**

7. What percent of individuals screened for CHIP eligibility cannot be enrolled because they have group health plan coverage? **[5]**

a. Of those found to have had employer sponsored insurance and have been uninsured for only a portion of the state's waiting period, what percent meet the state's exemptions and federally required exemptions to the waiting period [(# individuals subject to the waiting period that meet an exemption/total # of individuals subject to the waiting period)\*100]? **[5]**

8. Do you track the number of individuals who have access to private insurance?

- Yes  
 No

9. If yes to question 8, what percent of individuals that enrolled in CHIP had access to private health insurance at the time of application during the last federal fiscal year [(# of individuals that had access to private health insurance/total # of individuals enrolled in CHIP)\*100]? **[5]**

Enter any Narrative text related to Section IIIB below. **[7500]**

## Section IIIC: Eligibility

This subsection should be completed by all states. Medicaid Expansion states should complete applicable responses and indicate those questions that are non-applicable with N/A.

### Section IIIC: Subpart A: Eligibility Renewal and Retention

1. Do you have authority in your CHIP state plan to provide for presumptive eligibility, and have you implemented this?

- Yes  
 No

If yes,

- a. What percent of children are presumptively enrolled in CHIP pending a full eligibility determination? **[5]**
- b. Of those children who are presumptively enrolled, what percent of those children are determined eligible and enrolled upon completion of the full eligibility determination? **[5]**
2. Select the measures from those below that your state employs to simplify an eligibility renewal and retain eligible children in CHIP.

- Conducts follow-up with clients through caseworkers/outreach workers
- Sends renewal reminder notices to all families
- How many notices are sent to the family prior to disenrolling the child from the program? **[500]**  
2
  - At what intervals are reminder notices sent to families (e.g., how many weeks before the end of the current eligibility period is a follow-up letter sent if the renewal has not been received by the state?) **[500]**  
2 notices are sent beginning 45 days before coverage ends
- Other, please explain: **[500]**

3. Which of the above strategies appear to be the most effective? Have you evaluated the effectiveness of any strategies? If so, please describe the evaluation, including data sources and methodology. **[7500]**

have not evaluated

### Section IIIC: Subpart B: Eligibility Data

#### Table 1. Data on Denials of Title XXI Coverage in FFY 2019

States are required to report on all questions (1, 1.a., 1.b., and 1.c) in FFY 2019. Please enter the data requested in the table below and the template will tabulate the requested percentages. If you are unable to provide data in this section due to the single streamlined application, please note this in the response to question 2.

Measure	Number	Percent
1. Total number of denials of title XXI coverage	54816	100
a. Total number of procedural denials	5734	10.5
b. Total number of eligibility denials	49082	89.5
i. Total number of applicants denied for title XXI and enrolled in title XIX		
<input type="checkbox"/> (Check here if there are no additional categories)		
c. Total number of applicants denied for other reasons Please indicate:		

2. Please describe any limitations or restrictions on the data used in this table:

### Definitions:

1. The “the total number of denials of title XXI coverage” is defined as the total number of applicants that have had an eligibility decision made for title XXI and denied enrollment for title XXI in FFY 2019. This definition only includes denials for title XXI at the time of initial application (not redetermination).
  - a. The “total number of procedural denials” is defined as the total number of applicants denied for title XXI procedural reasons in FFY 2019 (i.e., incomplete application, missing documentation, missing enrollment fee, etc.).
  - b. The “total number of eligibility denials” is defined as the total number of applicants denied for title XXI eligibility reasons in FFY 2019 (i.e., income too high, income too low for title XXI /referred for Medicaid eligibility determination/determined Medicaid eligible , obtained private coverage or if applicable, had access to private coverage during your state’s specified waiting period, etc.)
    - i. The total number of applicants that are denied eligibility for title XXI and determined eligible for title XIX.
  - c. The “total number of applicants denied for other reasons” is defined as any other type of denial that does not fall into 2a or 2b. Please check the box provided if there are no additional categories.

## Table 2. Redetermination Status of Children

For tables 2a and 2b, reporting is required for FFY 2019.

### Table 2a. Redetermination Status of Children Enrolled in Title XXI.

Please enter the data requested in the table below in the “Number” column, and the template will automatically tabulate the percentages.

Description	Number	Percent			
1. Total number of children who are enrolled in title XXI and eligible to be redetermined	83170	100%			
2. Total number of children screened for redetermination for title XXI	80408	96.68	100%		
3. Total number of children retained in title XXI after the redetermination process					
4. Total number of children disenrolled from title XXI after the redetermination process				100%	
a. Total number of children disenrolled from title XXI for failure to comply with procedures					
b. Total number of children disenrolled from title XXI for failure to meet eligibility criteria					100%
i. Disenrolled from title XXI because income too high for title XXI (If unable to provide the data, check here <input type="checkbox"/> )					
ii. Disenrolled from title XXI because income too low for title XXI (If unable to provide the data, check here <input type="checkbox"/> )					
iii. Disenrolled from title XXI because application indicated access to private coverage or obtained private coverage (If unable to provide the data or if you have a title XXI Medicaid Expansion and this data is not relevant check here <input type="checkbox"/> )					
iv. Disenrolled from title XXI for other eligibility reason(s) Please indicate: (If unable to provide the data check here <input type="checkbox"/> )					
c. Total number of children disenrolled from title XXI for other reason(s) Please indicate: (Check here if there are no additional categories <input type="checkbox"/> )					

5. If relevant, please describe any limitations or restrictions on the data entered into this table. Please describe any state policies or procedures that may have impacted the redetermination outcomes data [7500].

#### Definitions:

- The “total number of children who are eligible to be redetermined” is defined as the total number of children due to renew their eligibility in federal fiscal year (FFY) 2019, and did not age out (did not exceed the program’s maximum age requirement) of the program by or before redetermination. This total number may include those children who are eligible to renew prior to their 12 month eligibility redetermination anniversary date. This total must include ex parte redeterminations, the process when a state uses information available to it through other databases, such as wage and labor records, to verify ongoing eligibility. This total number must also include children whose eligibility can be renewed through administrative redeterminations, whereby the state sends the family a renewal form that is pre-populated with eligibility information already available through program records and requires the family to report any changes.

2. The “total number of children screened for redetermination” is defined as the total number of children that were screened by the state for redetermination in FFY 2019 (i.e., ex parte redeterminations and administrative redeterminations, as well as those children whose families have returned redetermination forms to the state ).
3. The “total number of children retained after the redetermination process” is defined as the total number of children who were found eligible and remained in the program after the redetermination process in FFY 2019.
4. The “total number of children disenrolled from title XXI after the redetermination process” is defined as the total number of children who are disenrolled from title XXI following the redetermination process in FFY 2019. This includes those children that states may define as “transferred” to Medicaid for title XIX eligibility screening.
  - a. The “total number of children disenrolled for failure to comply with procedures” is defined as the total number of children disenrolled from title XXI for failure to successfully complete the redetermination process in FFY 2019 (i.e., families that failed to submit a complete application, failed to provide complete documentation, failed to pay premium or enrollment fee, etc.).
  - b. The “total number of children disenrolled for failure to meet eligibility criteria” is defined as the total number of children disenrolled from title XXI for no longer meeting one or more of their state’s CHIP eligibility criteria (i.e., income too low, income too high, obtained private coverage or if applicable, had access to private coverage during your state’s specified waiting period, etc.). If possible, please break out the reasons for failure to meet eligibility criteria in i.-iv.
  - c. The “total number of children disenrolled for other reason(s)” is defined as the total number of children disenrolled from title XXI for a reason other than failure to comply with procedures or failure to meet eligibility criteria, and are not already captured in 4.a. or 4.b.

The data entered in 4.a., 4.b., and 4.c. should sum to the total number of children disenrolled from title XXI (line 4).

**Table 2b. Redetermination Status of Children Enrolled in Title XIX.**

Please enter the data requested in the table below in the “Number” column, and the template will automatically tabulate the percentages.

Description	Number	Percent			
1. Total number of children who are enrolled in title XIX and eligible to be redetermined	310737	100%			
2. Total number of children screened for redetermination for title XIX	307934	99.1	100%		
3. Total number of children retained in title XIX after the redetermination process					
4. Total number of children disenrolled from title XIX after the redetermination process				100%	
a. Total number of children disenrolled from title XIX for failure to comply with procedures					
b. Total number of children disenrolled from title XIX for failure to meet eligibility criteria					100%
i. Disenrolled from title XIX because income too high for title XIX (If unable to provide the data, check here <input type="checkbox"/> )					
ii. Disenrolled from title XIX for other eligibility reason(s) Please indicate: (If unable to provide the data check here <input type="checkbox"/> )					
c. Total number of children disenrolled from title XIX for other reason(s) Please indicate: (Check here if there are no additional categories <input type="checkbox"/> )					

5. If relevant, please describe any limitations or restrictions on the data entered into this table. Please describe any state policies or procedures that may have impacted the redetermination outcomes data [7500].

**Definitions:**

1. The “total number of children who are eligible to be redetermined” is defined as the total number of children due to renew their eligibility in federal fiscal year (FFY) 2019, and did not age out (did not exceed the program’s maximum age requirement) of the program by or before redetermination. This total number may include those children

who are eligible to renew prior to their 12 month eligibility redetermination anniversary date. This total must include ex parte redeterminations, the process when a state uses information available to it through other databases, such as wage and labor records, to verify ongoing eligibility. This total number must also include children whose eligibility can be renewed through administrative redeterminations, whereby the state sends the family a renewal form that is pre-populated with eligibility information already available through program records and requires the family to report any changes.

2. The “total number of children screened for redetermination” is defined as the total number of children that were screened by the state for redetermination in FFY 2019 (i.e., ex parte redeterminations and administrative redeterminations, as well as those children whose families have returned redetermination forms to the state).
3. The “total number of children retained after the redetermination process” is defined as the total number of children who were found eligible and remained in the program after the redetermination process in FFY 2019.
4. The “total number of children disenrolled from title XIX after the redetermination process” is defined as the total number of children who are disenrolled from title XIX following the redetermination process in FFY 2019. This includes those children that states may define as “transferred” to CHIP for title XXI eligibility screening.
  - a. The “total number of children disenrolled for failure to comply with procedures” is defined as the total number of children disenrolled from title XIX for failure to successfully complete the redetermination process in FFY 2019 (i.e., families that failed to submit a complete application, failed to provide complete documentation, failed to pay premium or enrollment fee, etc.).
  - b. The “total number of children disenrolled for failure to meet eligibility criteria” is defined as the total number of children disenrolled from title XIX for no longer meeting one or more of their state’s Medicaid eligibility criteria (i.e., income too high, etc.).
  - c. The “total number of children disenrolled for other reason(s)” is defined as the total number of children disenrolled from title XIX for a reason other than failure to comply with procedures or failure to meet eligibility criteria, and are not already captured in 4.a. or 4.b.  
The data entered in 4.a., 4.b., and 4.c. should sum to the total number of children disenrolled from title XIX (line 4).

### Table 3. Duration Measure of Selected Children, Ages 0-16, Enrolled in Title XIX and Title XXI, Second Quarter FFY 2018

The purpose of tables 3a and 3b is to measure the duration, or continuity, of Medicaid and CHIP enrollees' coverage. This information is required by Section 402(a) of CHIPRA. **Reporting on this table is required.**

The measure is designed to capture continuity of coverage for a cohort of children in title XIX and title XXI for 18 months of enrollment. This means that reporting spans two CARTS reports over two years, with enrollment status at 6 months being reported in the first reporting year, and 12 and 18 month enrollment status reported in the second reporting year. **States identify a new cohort of children every two years. States identify newly enrolled children in the second quarter of FFY 2018 (January, February, and March of 2018) for the FFY 2018 CARTS report. This same cohort of children will be reported on in the FFY 2019 CARTS report for the 12 and 18 month status of children newly identified in quarter 2 of FFY 2018. If your eligibility system already has the capability to track a cohort of enrollees over time, an additional "flag" or unique identifier may not be necessary.**

**The FFY 2019 CARTS report is the second year of reporting in the cycle of two CARTS reports on the cohort of children identified in the second quarter of FFY 2018.** For the FFY 2018 report, States only reported on lines 1-4a of the tables. **In the FFY 2019 report, no updates will be made to lines 1-4a. For the FFY 2019 report, data will be added to lines 5-10a.** The next cohort of children will be identified in the second quarter of the FFY 2020 (January, February and March of 2020).

**Instructions:** For this measure, please identify newly enrolled children in both title XIX (for Table 3a) and title XXI (for Table 3b) in the second quarter of FFY 2018, ages 0 months to 16 years at time of enrollment. Children enrolled in January 2018 must have birthdates after July 2001 (e.g., children must be younger than 16 years and 5 months) to ensure that they will not age out of the program at the 18th month of coverage. Similarly, children enrolled in February 2018 must have birthdates after August 2001, and children enrolled in March 2018 must have birthdates after September 2001. Each child newly enrolled during this time frame needs a unique identifier or "flag" so that the cohort can be tracked over time. If your eligibility system already has the capability to track a cohort of enrollees over time, an additional "flag" or unique identifier may not be necessary. Please follow the child based on the child's age category at the time of enrollment (e.g., the child's age at enrollment creates an age cohort that does not change over the 18 month time span)

Please enter the data requested in the tables below, and the template will tabulate the percentages. In the FFY 2019 report you will enter data on lines 5-7a related to the 12-month enrollment status of children identified on line 1. You will also enter data on lines 8-10a related to the 18-month enrollment status of children identified on line 1. **Only enter a "0" (zero) if the data are known to be zero. If data are unknown or unavailable, leave the field blank.**

**Note that all data must sum correctly in order to save and move to the next page.** The data in each individual row must add across to sum to the total in the "All Children Ages 0-16" column for that row. And in each column, the data within each time period (6, 12 and 18 months) must each sum up to the data in row 1, which is the number of children in the cohort. This means that in each column, rows 2, 3 and 4 must sum to the total in row 1; rows 5, 6 and 7 must sum to row 1; and rows 8, 9 and 10 must sum to row 1. These tables track a child's enrollment status over time, so when data are added or modified at each milestone (6, 12, and 18 months), there should always be the same total number of children accounted for in line 1 "All Children Ages 0-16" over the entire 18 month period. **Rows numbered with an "a" (e.g., rows 3a and 4a) are excluded from the totals because they are subsets of their respective rows. The system will not move to the next section of the report until all applicable sections of the table for the reporting year are complete and sum correctly to line 1.**

### Table 3 a. Duration Measure of Children Enrolled in Title XIX

Not Previously Enrolled in CHIP or Medicaid—“Newly enrolled” is defined as not enrolled in either title XXI or title XIX in the month before enrollment (i.e., for a child enrolled in January 2018, he/she would not be enrolled in either title XXI or title XIX in December 2017, etc.)

Not Previously Enrolled in Medicaid—“Newly enrolled” is defined as not enrolled in title XIX in the month before enrollment (i.e., for a child enrolled in January 2018, he/she would not be enrolled in title XIX in December 2017, etc.)

Table 3a. Duration Measure, Title XIX	All Children Ages 0-16		Age Less than 12 months		Ages 1-5		Ages 6-12		Ages 13-16	
	Number	Percent	Number	Percent	Number	Percent	Number	Percent	Number	Percent
<b>1. Total number of children newly enrolled in title XIX in the second quarter of FFY 2018</b>	23437	100%	6126	100%	6400	100%	7657	100%	3254	100%
<b>Enrollment status 6 months later</b>										
2. Total number of children continuously enrolled in title XIX	21736	92.74	5844	95.4	5823	90.98	7105	92.79	2964	91.09
3. Total number of children with a break in title XIX coverage but re-enrolled in title XIX	231	0.99	25	0.41	86	1.34	69	0.9	51	1.57
3.a. Total number of children enrolled in CHIP (title XXI) during title XIX coverage break (If unable to provide the data, check here <input type="checkbox"/> )	50	0.21	3	0.05	21	0.33	17	0.22	9	0.28

**Definitions:**

1. The “total number of children newly enrolled in title XIX in the second quarter of FFY 2018” is defined as those children either new to public coverage or new to title XIX, in the month before enrollment. Please define your population of “newly enrolled” in the Instructions section.
2. The total number of children that were continuously enrolled in title XIX for 6 months is defined as the sum of:
  - the number of children with birthdates after July 2001, who were newly enrolled in January 2018 and who were continuously enrolled through the end of June 2018
  - + the number of children with birthdates after August 2001, who were newly enrolled in February 2018 and who were continuously enrolled through the end of July 2018
  - + the number of children with birthdates after September 2001, who were newly enrolled in March 2018 and who were continuously enrolled through the end of August 2018
3. The total number who had a break in title XIX coverage during 6 months of enrollment (regardless of the number of breaks in coverage) but were re-enrolled in title XIX by the end of the 6 months, is defined as the sum of:
  - the number of children with birthdates after July 2001, who were newly enrolled in January 2018 and who disenrolled and re-enrolled in title XIX by the end of June 2018
  - + the number of children with birthdates after August 2001, who were newly enrolled in February 2018 and who disenrolled and re-enrolled in title XIX by the end of July 2018
  - + the number of children with birthdates after September 2001, who were newly enrolled in March 2018 and who disenrolled and re-enrolled in title XIX by the end of August 2018
  - 3.a. From the population in #3, provide the total number of children who were enrolled in title XXI during their break in coverage.
4. The total number who disenrolled from title XIX, 6 months after their enrollment month is defined as the sum of:
  - the number of children with birthdates after July 2001, who were newly enrolled in January 2018 and were disenrolled by the end of June 2018
  - + the number of children with birthdates after August 2001, who were newly enrolled in February 2018 and were disenrolled by the end of July 2018
  - + the number of children with birthdates after September 2001, who were newly enrolled in March 2018 and were disenrolled by the end of August 2018
  - 4.a. From the population in #4, provide the total number of children who were enrolled in title XXI in the month after their disenrollment from title XIX.
5. The total number of children who were continuously enrolled in title XIX for 12 months is defined as the sum of:
  - the number of children with birthdates after July 2001, who were newly enrolled in January 2018 and were continuously enrolled through the end of December 2018
  - + the number of children with birthdates after August 2001, who were newly enrolled in February 2018 and were continuously enrolled through the end of January 2019
  - + the number of children with birthdates after September 2001, who were newly enrolled in March 2018 and were continuously enrolled through the end of February 2019

6. The total number of children who had a break in title XIX coverage during 12 months of enrollment (regardless of the number of breaks in coverage), but were re-enrolled in title XIX by the end of the 12 months, is defined as the sum of:
- the number of children with birthdates after July 2001, who were newly enrolled in January 2018 and who disenrolled and then re-enrolled in title XIX by the end of December 2018
  - + the number of children with birthdates after August 2001, who were newly enrolled in February 2018 and who disenrolled and then re-enrolled in title XIX by the end of January 2019
  - + the number of children with birthdates after September 2001 who were newly enrolled in March 2018 and who disenrolled and then re-enrolled in title XIX by the end of February 2019
- 6.a. From the population in #6, provide the total number of children who were enrolled in title XXI during their break in coverage.
7. The total number of children who disenrolled from title XIX 12 months after their enrollment month is defined as the sum of:
- the number of children with birthdates after July 2001, who were enrolled in January 2018 and were disenrolled by the end of December 2018
  - + the number of children with birthdates after August 2001, who were enrolled in February 2018 and were disenrolled by the end of January 2019
  - + the number of children with birthdates after September 2001, who were enrolled in March 2018 and were disenrolled by the end of February 2019
- 7.a. From the population in #7, provide the total number of children, who were enrolled in title XXI in the month after their disenrollment from title XIX.
8. The total number of children who were continuously enrolled in title XIX for 18 months is defined as the sum of:
- the number of children with birthdates after July 2001, who were newly enrolled in January 2018 and were continuously enrolled through the end of June 2019
  - + the number of children with birthdates after August 2001, who were newly enrolled in February 2018 and were continuously enrolled through the end of July 2019
  - + the number of children with birthdates after September 2001, who were newly enrolled in March 2018 and were continuously enrolled through the end of August 2019
9. The total number of children who had a break in title XIX coverage during 18 months of enrollment (regardless of the number of breaks in coverage), but were re-enrolled in title XIX by the end of the 18 months, is defined as the sum of:
- the number of children with birthdates after July 2001, who were newly enrolled in January 2018 and who disenrolled and re-enrolled in title XIX by the end of June 2019
  - + the number of children with birthdates after August 2001, who were newly enrolled in February 2018 and who disenrolled and re-enrolled in title XIX by the end of July 2019
  - + the number of children with birthdates after September 2001, who were newly enrolled in March 2018 and who disenrolled and re-enrolled in title XIX by the end of August 2019
- 9.a. From the population in #9, provide the total number of children who were enrolled in title XXI during their break in coverage.
10. The total number of children who were disenrolled from title XIX 18 months after their enrollment month is defined as the sum of:
- the number of children with birthdates after July 2001, who were newly enrolled in January 2018 and disenrolled by the end of June 2019
  - + the number of children with birthdates after August 2001, who were newly enrolled in February 2018 and disenrolled by the end of July 2019
  - + the number of children with birthdates after September 2001, who were newly enrolled in March 2018 and disenrolled by the end of August 2019
- 10.a. From the population in #10, provide the total number of children who were enrolled in title XXI (CHIP) in the month after their disenrollment from XIX.

### Table 3b. Duration Measure of Children Enrolled in Title XXI

Specify how your “newly enrolled” population is defined:

Not Previously Enrolled in CHIP or Medicaid—“Newly enrolled” is defined as not enrolled in either title XXI or title XIX in the month before enrollment (i.e., for a child enrolled in January 2018, he/she would not be enrolled in either title XXI or title XIX in December 2017, etc.)

Not Previously Enrolled in CHIP—“Newly enrolled” is defined as not enrolled in title XXI in the month before enrollment (i.e., for a child enrolled in January 2018, he/she would not be enrolled in title XXI in December 2017, etc.)

Table 3b. Duration Measure, Title XXI	All Children Ages 0-16		Age Less than 12 months		Ages 1-5		Ages 6-12		Ages 13-16	
	Number	Percent	Number	Percent	Number	Percent	Number	Percent	Number	Percent
1. Total number of children newly enrolled in title XXI in the second quarter of FFY 2018	10700	100%	264	100%	4118	100%	4423	100%	1895	100%

6.a. Total number of children enrolled in Medicaid (title XIX) during title XXI coverage break (If unable to provide the data, check here <input type="checkbox"/> )	107	1	5	1.89	43	1.04	36	0.81	23	1.21
7. Total number of children disenrolled from title XXI	2697	25.21	80	30.3	1111	26.98	1029	23.26	477	25.17
7.a. Total number of children enrolled in Medicaid (title XIX) after being disenrolled from title XXI (If unable to provide the data, check here <input type="checkbox"/> )	1924	17.98	45	17.05	732	17.78	783	17.7	364	19.21
<b>Enrollment status 18 months later</b>										
8. Total number of children continuously enrolled in title XXI	7791	72.81	177	67.05	2909	70.64	3326	75.2	1379	72.77
9. Total number of children with a break in title XXI coverage but re-enrolled in title XXI	211	1.97	7	2.65	97	2.36	68	1.54	39	2.06
9.a. Total number of children enrolled in Medicaid (title XIX) during title XXI coverage break (If unable to provide the data, check here <input type="checkbox"/> )	107	1	5	1.89	43	1.04	36	0.81	23	1.21
10. Total number of children disenrolled from title XXI	2698	25.21	80	30.3	1112	27	1029	23.26	477	25.17
10.a. Total number of children enrolled in Medicaid (title XIX) after being disenrolled from title XXI (If unable to provide the data, check here <input type="checkbox"/> )	1924	17.98	45	17.05	732	17.78	783	17.7	364	19.21

**Definitions:**

1. The “total number of children newly enrolled in title XXI in the second quarter of FFY 2018” is defined as those children either new to public coverage or new to title XXI, in the month before enrollment. Please define your population of “newly enrolled” in the Instructions section.

2. The total number of children that were continuously enrolled in title XXI for 6 months is defined as the sum of:
  - the number of children with birthdates after July 2001, who were newly enrolled in January 2018 and who were continuously enrolled through the end of June 2018
  - + the number of children with birthdates after August 2001, who were newly enrolled in February 2018 and who were continuously enrolled through the end of July 2018
  - + the number of children with birthdates after September 2001, who were newly enrolled in March 2018 and who were continuously enrolled through the end of August 2018
  
3. The total number who had a break in title XXI coverage during 6 months of enrollment (regardless of the number of breaks in coverage) but were re-enrolled in title XXI by the end of the 6 months, is defined as the sum of:
  - the number of children with birthdates after July 2001, who were newly enrolled in January 2018 and who disenrolled and re-enrolled in title XXI by the end of June 2018
  - + the number of children with birthdates after August 2001, who were newly enrolled in February 2018 and who disenrolled and re-enrolled in title XXI by the end of July 2018
  - + the number of children with birthdates after September 2001, who were newly enrolled in March 2018 and who disenrolled and re-enrolled in title XXI by the end of August 2018
  - 3.a. From the population in #3, provide the total number of children who were enrolled in title XIX during their break in coverage.
  
4. The total number who disenrolled from title XXI, 6 months after their enrollment month is defined as the sum of:
  - the number of children with birthdates after July 2001, who were newly enrolled in January 2018 and were disenrolled by the end of June 2018
  - + the number of children with birthdates after August 2001, who were newly enrolled in February 2018 and were disenrolled by the end of July 2018
  - + the number of children with birthdates after September 2001, who were newly enrolled in March 2018 and were disenrolled by the end of August 2018
  - 4.a. From the population in #4, provide the total number of children who were enrolled in title XIX in the month after their disenrollment from title XXI.
  
5. The total number of children who were continuously enrolled in title XXI for 12 months is defined as the sum of:
  - the number of children with birthdates after July 2001, who were newly enrolled in January 2018 and were continuously enrolled through the end of December 2018
  - + the number of children with birthdates after August 2001, who were newly enrolled in February 2018 and were continuously enrolled through the end of January 2019
  - + the number of children with birthdates after September 2001, who were newly enrolled in March 2018 and were continuously enrolled through the end of February 2019
  
6. The total number of children who had a break in title XXI coverage during 12 months of enrollment (regardless of the number of breaks in coverage), but were re-enrolled in title XXI by the end of the 12 months, is defined as the sum of:
  - the number of children with birthdates after July 2001, who were newly enrolled in January 2018 and who disenrolled and then re-enrolled in title XXI by the end of December 2018
  - + the number of children with birthdates after August 2001, who were newly enrolled in February 2018 and who disenrolled and then re-enrolled in title XXI by the end of January 2019
  - + the number of children with birthdates after September 2001, who were newly enrolled in March 2018 and who disenrolled and then re-enrolled in title XXI by the end of February 2019
  - 6.a. From the population in #6, provide the total number of children who were enrolled in title XIX during their break in coverage.
  
7. The total number of children who disenrolled from title XXI 12 months after their enrollment month is defined as the sum of:
  - the number of children with birthdates after July 2001, who were enrolled in January 2018 and were disenrolled by the end of December 2018
  - + the number of children with birthdates after August 2001, who were enrolled in February 2018 and were disenrolled by the end of January 2019
  - + the number of children with birthdates after September 2001, who were enrolled in March 2018 and were disenrolled by the end of February 2019
  - 7.a. From the population in #7, provide the total number of children, who were enrolled in title XIX in the month after their disenrollment from title XXI.
  
8. The total number of children who were continuously enrolled in title XXI for 18 months is defined as the sum of:
  - the number of children with birthdates after July 2001, who were newly enrolled in January 2018 and were continuously enrolled through the end of June 2019
  - + the number of children with birthdates after August 2001, who were newly enrolled in February 2018 and were continuously enrolled through the end of July 2019
  - + the number of children with birthdates after September 2001, who were newly enrolled in March 2018 and were continuously enrolled through the end of August 2019
  
9. The total number of children who had a break in title XXI coverage during 18 months of enrollment (regardless of the number of breaks in coverage), but were re-enrolled in title XXI by the end of the 18 months, is defined as the sum of:
  - the number of children with birthdates after July 2001, who were newly enrolled in January 2018 and who disenrolled and re-enrolled in title XXI by the end of June 2019
  - + the number of children with birthdates after August 2001, who were newly enrolled in February 2018 and who disenrolled and re-enrolled in title XXI by the end of July 2019
  - + the number of children with birthdates after September 2001, who were newly enrolled in March 2018 and who disenrolled and re-enrolled in title XXI by the end of August 2019
  - 9.a. From the population in #9, provide the total number of children who were enrolled in title XIX during their break in coverage.

10. The total number of children who were disenrolled from title XXI 18 months after their enrollment month is defined as the sum of:
  - the number of children with birthdates after July 2001, who were newly enrolled in January 2018 and disenrolled by the end of June 2019
  - + the number of children with birthdates after August 2001, who were newly enrolled in February 2018 and disenrolled by the end of July 2019
  - + the number of children with birthdates after September 2001, who were newly enrolled in March 2018 and disenrolled by the end of August 2019
- 10.a. From the population in #10, provide the total number of children who were enrolled in title XIX (Medicaid) in the month after their disenrollment from XXI.

## Section IIID: Cost Sharing

1. Describe how the state tracks cost sharing to ensure enrollees do not pay more than 5 percent aggregate maximum in the year? If the state checks N/A for this question because no cost sharing is required, please skip to Section IIIE.

a. Cost sharing is tracked by:

Enrollees (shoebox method)

If the state uses the shoebox method, please describe informational tools provided to enrollees to track cost sharing. **[7500]**

- Health Plan(s)  
 State  
 Third Party Administrator  
 N/A (No cost sharing required)  
 Other, please explain. **[7500]**

2. When the family reaches the 5% cap, are premiums, copayments and other cost sharing ceased?  
 Yes  
 No

3. Please describe how providers are notified that no cost sharing should be charged to enrollees exceeding the 5% cap. **[7500]**

4. Please provide an estimate of the number of children that exceeded the 5 percent cap in the state's CHIP program during the federal fiscal year. **[500]**

5. Has your state undertaken any assessment of the effects of premiums/enrollment fees on participation in CHIP?

Yes  
 No If so, what have you found? **[7500]**

6. Has your state undertaken any assessment of the effects of cost sharing on utilization of health services in CHIP?

Yes  
 No If so, what have you found? **[7500]**

7. If your state has increased or decreased cost sharing in the past federal fiscal year, how is the state monitoring the impact of these changes on application, enrollment, disenrollment, and utilization of children's health services in CHIP. If so, what have you found? **[7500]**

Enter any Narrative text related to Section IIID below. **[7500]**

### **Section IIIE: Employer sponsored insurance Program (including Premium Assistance)**

1. Does your state offer an employer sponsored insurance program (including a premium assistance program under the CHIP State Plan or a Section 1115 Title XXI Demonstration) for children and/or adults using Title XXI funds?

- Yes, please answer questions below.  
 No, skip to Program Integrity subsection.

Check all that apply and complete each question for each authority

- Purchase of Family Coverage under the CHIP state plan (2105(c)(3))  
 Additional Premium Assistance Option under CHIP state plan (2105(c)(10))  
 Section 1115 Demonstration (Title XXI)

2. Please indicate which adults your state covers with premium assistance. (Check all that apply.)

- Parents and Caretaker Relatives  
 Pregnant Women

3. Briefly describe how your program operates (e.g., is your program an employer sponsored insurance program or a premium assistance program, how do you coordinate assistance between the state and/or employer, who receives the subsidy if a subsidy is provided, etc.) **[7500]**

4. What benefit package does the ESI program use? **[7500]**

5. Are there any minimum coverage requirements for the benefit package?

- Yes  
 No

6. Does the program provide wrap-around coverage for benefits?

- Yes  
 No

7. Are there limits on cost sharing for children in your ESI program?

- Yes  
 No

8. Are there any limits on cost sharing for adults in your ESI program?

- Yes  
 No

9. Are there protections on cost sharing for children (e.g., the 5 percent out-of-pocket maximum) in your premium assistance program?

- Yes
- No

If yes, how is the cost sharing tracked to ensure it remains within the 5 percent yearly aggregate maximum **[7500]**?

10. Identify the total number of children and adults enrolled in the ESI program for whom Title XXI funds are used during the reporting period (provide the number of adults enrolled in this program even if they were covered incidentally, i.e., not explicitly covered through a demonstration).

Number of childless adults ever-enrolled during the reporting period

Number of adults ever-enrolled during the reporting period

Number of children ever-enrolled during the reporting period

11. Provide the average monthly enrollment of children and parents ever enrolled in the premium assistance program during FFY 2019.

Children  
Parents

12. During the reporting period, what has been the greatest challenge your ESI program has experienced? **[7500]**

13. During the reporting period, what accomplishments have been achieved in your ESI program? **[7500]**

14. What changes have you made or are planning to make in your ESI program during the next fiscal year? Please comment on why the changes are planned. **[7500]**

15. What do you estimate is the impact of your ESI program (including premium assistance) on enrollment and retention of children? How was this measured? **[7500]**

16. Provide the average amount each entity pays towards coverage of the dependent child/parent under your ESI program:

Population	State	Employer	Employee
Child			
Parent			

17. Indicate the range in the average monthly dollar amount of premium assistance provided by the state on behalf of a child or parent.

	Low	High
<b>Children</b>		
<b>Parent</b>		

18. If you offer a premium assistance program, what, if any, is the minimum employer contribution? **[500]**

19. Please provide the income levels of the children or families provided premium assistance.

Income level of	From	To
<b>Children</b>	% of FPL <b>[5]</b>	% of FPL <b>[5]</b>
<b>Parents</b>	% of FPL <b>[5]</b>	% of FPL <b>[5]</b>

20. Is there a required period of uninsurance before enrolling in premium assistance?

- Yes  
 No

If yes, what is the period of uninsurance? **[500]**

21. Do you have a waiting list for your program?

- Yes  
 No

22. Can you cap enrollment for your program?

- Yes  
 No

23. What strategies has the state found to be effective in reducing administrative barriers to the provision of premium assistance in ESI? **[7500]**

Enter any Narrative text related to Section III E below. **[7500]**

### **Section III F: Program Integrity**

**COMPLETE ONLY WITH REGARD TO SEPARATE CHIP PROGRAMS, I.E., THOSE THAT ARE NOT MEDICAID EXPANSIONS)**

1. Does your state have a written plan that has safeguards and establishes methods and procedures for:

- (1) prevention:
  - Yes
  - No
- (2) investigation:
  - Yes
  - No
- (3) referral of cases of fraud and abuse?
  - Yes
  - No

Please explain: **[7500]**

Oregon has a robust audit function that consists of 13 Governmental Auditors 2, 1 Medical Review Coordinator, 1 Governmental Auditor 3, 2 Research Analysts 4, 1 Research 3, 1 Operations and Policy Analyst 4, and 1 Administrative Assistance 2. Auditors perform onsite and desk audits of simple and complex issues with different providers type and CCOs. Research analysts focus on data analysis/utilization reviews in determining potential leads. Potential leads are screened with the objective of forming an audit/ no audit decision. When audits are selected to be opened, the Program Integrity Audit Unit utilizes statistically valid random sampling to review a provider's entire claims population for a defined period. Overpayments are assessed using extrapolation when material violations of rules for reimbursement are found. The researcher performs algorithms on paid claims as another strategy for monitoring claims.

Oregon has a memorandum of understanding with the Oregon Department of Justice Medicaid Fraud Control Unit (MFCU). The State remains responsible for conducting preliminary investigations on potential fraud and abuse. Below are examples of cases which may be referred to the MFCU:

- a. Cases in which over sampled or audited services are not supported by documentation and there is a suspicion of fraudulent intent.
- b. Cases in which sampled or audited services are billed at a higher-level procedure code than is documented in violation of state and/ or federal rules and/ or regulations and there is suspicion of fraudulent intent.
- c. Verified cases where the provider billed Oregon Medicaid at a higher rate than non-Medicaid recipients or other insurance programs.
- d. Verified cases where the provider purposely altered or destroyed documentation to collect Medicaid payments not otherwise due.
- e. Cases that are found to have characteristics which appear to Oregon Medicaid to indicate a potential for fraud.
- f. Cases where Oregon Medicaid has revoked a provider's billing number based on violation of an administrative rule.

Do managed health care plans with which your program contracts have written plans?

- Yes
- No

Please Explain: **[500]**

CCO and DCO contracts and BH organizations contain requirements for operational policies and controls in areas such as claims, prior authorization, utilization and quality review, Grievance and Appeal resolution, credentialing and contracting. Fraud and Abuse policies, and the CCO compliance plans are submitted and reviewed annually by the Office of Program Integrity.

2. For the reporting period, please report the
- 774 Number of fair hearing appeals of eligibility denials
  - 7 Number of cases found in favor of beneficiary
3. For the reporting period, please indicate the number of cases investigated, and cases referred, regarding fraud and abuse in the following areas:
- Provider Credentialing
- 0 Number of cases investigated
  - 0 Number of cases referred to appropriate law enforcement officials
- Provider Billing
- 169 Number of cases investigated
  - 56 Number of cases referred to appropriate law enforcement officials
- Beneficiary Eligibility
- 371 Number of cases investigated
  - 4 Number of cases referred to appropriate law enforcement officials

Are these cases for:

- CHIP
- Medicaid and CHIP Combined

4. Does your state rely on contractors to perform the above functions?
- Yes, please answer question below.
  - No
5. If your state relies on contractors to perform the above functions, how does your state provide oversight of those contractors? Please explain: **[7500]**
6. Do you contract with managed care health plans and/or a third party contractor to provide this oversight?
- Yes
  - No
- Please Explain: **[500]**

Enter any Narrative text related to Section IIIF below. **[7500]**

## Section III G: Dental Benefits:

Please ONLY report data in this section for children in Separate CHIP programs and the Separate CHIP part of Combination programs. Reporting is required for all states with Separate CHIP programs and Combination programs. If your state has a Combination program or a Separate CHIP program but you are not reporting data in this section on children in the Separate CHIP part of your program, please explain why. Explain: [7500]

1. **Information on Dental Care for Children in Separate CHIP Programs (including children in the Separate CHIP part of Combination programs). Include all delivery system types, e.g. MCO, PCCM, FFS.**

Data for this table are based on the definitions provided on the Early and Periodic Screening, Diagnostic, and Treatment (EPSDT) Report (Form CMS-416)

- a. **Annual Dental Participation Table for Children Enrolled in Separate CHIP programs and the Separate CHIP part of Combination programs (for Separate CHIP programs, please include ONLY children receiving full CHIP benefits and supplemental benefits).**

FFY 2019	Total (All age groups)	<1 year	1 – 2 years	3 – 5 years	6 – 9 years	10–14 years	15–18 years
<b>Total Individuals Enrolled for at Least 90 Continuous Days<sup>1</sup></b>	71455	438	4463	12571	16900	20695	14508
<b>Total Enrollees Receiving Any Dental Services<sup>2</sup> [7]</b>	37036	9	1209	6346	10751	11633	6615
<b>Total Enrollees Receiving Preventive Dental Services<sup>3</sup> [7]</b>	34317	2	1044	5970	10190	10968	5782

<sup>1</sup> **Total Individuals Enrolled for at Least 90 Continuous Days** – Enter the total unduplicated number of children who have been continuously enrolled in a separate CHIP program or the separate CHIP part of a combination program for at least 90 continuous days in the federal fiscal year, distributed by age. For example, if a child was enrolled January 1st to March 31st, this child is considered continuously enrolled for at least 90 continuous days in the federal fiscal year. If a child was enrolled from August 1st to September 30th and from October 1st to November 30th, the child would not be considered to have been enrolled for 90 continuous days in the federal fiscal year. Children should be counted in age groupings based on their age at the end of the fiscal year. For example, if a child turned 3 on September 15th, the child should be counted in the 3-6 age grouping.

<sup>2</sup> **Total Enrollees Receiving Any Dental Services** - Enter the unduplicated number of children enrolled in a separate CHIP program or the separate CHIP part of a combination program for at least 90 continuous days who received at least one dental service by or under the supervision of a dentist as defined by HCPCS codes D0100 - D9999 (or equivalent CDT codes D0100 - D9999 or equivalent CPT codes) based on an unduplicated paid, unpaid, or denied claim.

<sup>3</sup> **Total Enrollees Receiving Preventive Dental Services** - Enter the unduplicated number of children enrolled in a separate CHIP program or the separate CHIP part of a combination program for at least 90 continuous days who received at least one preventive dental service by or under the supervision of a dentist as defined by HCPCS codes D1000 - D1999 (or equivalent CDT codes D1000 - D1999 or equivalent CPT codes, that is, only those CPT codes that are for preventive dental services and only if provided by or under the supervision of a dentist), based on an unduplicated paid, unpaid, or denied claim.

FFY 2019	Total (All age groups)	<1 year	1 – 2 years	3 – 5 years	6 – 9 years	10–14 years	15–18 years
Total Enrollees Receiving Dental Treatment Services <sup>4</sup> [7]	13093	3	85	1613	4350	4093	2724

b. For the age grouping that includes children 8 years of age, what is the number of such children who have received a sealant on at least one permanent molar tooth<sup>5</sup>? [7]

3690

2. Does the state provide supplemental dental coverage?

Yes

No

If yes, how many children are enrolled? [7]

What percent of the total number of enrolled children have supplemental dental coverage? [5]

Enter any Narrative text related to Section IIIG below. [7500]

<sup>4</sup> **Total Enrollees Receiving Dental Treatment Services** - Enter the unduplicated number of children enrolled in a separate CHIP program or the separate CHIP part of a combination program for at least 90 continuous days who received at least one treatment service by or under the supervision of a dentist, as defined by HCPCS codes D2000 - D9999 (or equivalent CDT codes D2000 - D9999 or equivalent CPT codes, that is, only those CPT codes that involve periodontics, maxillofacial prosthetics, implants, oral and maxillofacial surgery, orthodontics, adjunctive general services, and only if provided by or under the supervision of a dentist), based on an unduplicated paid, unpaid, or denied claim.

Report all dental services data in the age category reflecting the child's age at the end of the federal fiscal year even if the child received services while in two age categories. For example, if a child turned 10 on September 1st, but had a cleaning in April and a cavity filled in September, both the cleaning and the filling would be counted in the 10-14 age category.

<sup>5</sup> **Receiving a Sealant on a Permanent Molar Tooth** -- Enter the unduplicated number of children enrolled in a separate CHIP program or the separate CHIP part of a combination program for 90 continuous days and in the age category of 6-9 who received a sealant on a permanent molar tooth, as defined by HCPCS code D1351 (or equivalent CDT code D1351), based on an unduplicated paid, unpaid, or denied claim. For this line, include sealants placed by any dental professional for whom placing a sealant is within his or her scope of practice. Permanent molars are teeth numbered 2, 3, 14, 15, 18, 19, 30, 31, and additionally, for those states that cover sealants on third molars, also known as wisdom teeth, the teeth numbered 1, 16, 17, 32.

Report all sealant data in the age category reflecting the child's age at the end of the federal fiscal year even if the child was factually a different age on the date of service. For example, if a child turned 6 on September 1st, but had a sealant applied in July, the sealant would be counted in the age 6-9 category.

### Section IIIH: CHIPRA CAHPS Requirement:

CHIPRA section 402(a)(2), which amends reporting requirements in section 2108 of the Social Security Act, requires Title XXI Programs (i.e., CHIP Medicaid Expansion programs, Separate Child Health Programs, or a combination of the two) to report CAHPS results to CMS starting December 2013. While Title XXI Programs may select any CAHPS survey to fulfill this requirement, CMS encourages these programs to align with the CAHPS measure in the Children’s Core Set of Health Care Quality Measures for Medicaid and CHIP (Child Core Set). Starting in 2013, Title XXI Programs should submit summary level information from the CAHPS survey to CMS via the CARTS attachment facility. We also encourage states to submit raw data to the Agency for Healthcare Research and Quality’s CAHPS Database. More information is available in the Technical Assistance fact sheet, Collecting and Reporting the CAHPS Survey as Required Under the CHIPRA: <https://www.medicaid.gov/medicaid/quality-of-care/downloads/cahpsfactsheet.pdf>

If a state would like to provide CAHPS data on both Medicaid and CHIP enrollees, the agency must sample Title XIX (Medicaid) and Title XXI (CHIP) programs separately and submit separate results to CMS to fulfill the CHIPRA Requirement.

#### Did you Collect this Survey in Order to Meet the CHIPRA CAHPS Requirement?

- Yes
- No

#### If Yes, How Did you Report this Survey (select all that apply):

- Submitted raw data to AHRQ (CAHPS Database)
- Submitted a summary report to CMS using the CARTS attachment facility (NOTE: do not submit raw CAHPS data to CMS)
- Other. Explain:

#### If No, Explain Why:

Select all that apply (Must select at least one):

- Service not covered
- Population not covered
  - Entire population not covered
  - Partial population not coveredExplain the partial population not covered:
- Data not available
  - Explain why data not available
    - Budget constraints
    - Staff constraints
    - Data inconsistencies/accuracyPlease explain:
    - Data source not easily accessibleSelect all that apply:
  - Requires medical record review
  - Requires data linkage which does not currently exist
  - Other:

Information not collected.

Select all that apply:

Not collected by provider (hospital/health plan)

Other:

Other:

Small sample size (less than 30)

Enter specific sample size:

Other. Explain:

**Definition of Population Included in the Survey Sample:**

Definition of population included in the survey sample:

Denominator includes CHIP (Title XXI) population only.

Survey sample includes CHIP Medicaid Expansion population.

Survey sample includes Separate CHIP population.

Survey sample includes Combination CHIP population.

If the denominator is a subset of the definition selected above, please further define the denominator, and indicate the number of children excluded:

**Which Version of the CAHPS® Survey was Used?**

CAHPS® 5.0.

CAHPS® 5.0H.

Other. Explain:

**Which Supplemental Item Sets were Included in the Survey?**

No supplemental item sets were included

CAHPS Item Set for Children with Chronic Conditions

Other CAHPS Item Set. Explain:

**Which Administrative Protocol was Used to Administer the Survey?**

NCQA HEDIS CAHPS 5.0H administrative protocol

HRQ CAHPS administrative protocol

Other administrative protocol. Explain: see below

Enter any Narrative text related to Section IIIH below. **[7500]**

Oregon follows HEDIS in general but does not separate out CHIP and Medicaid by plan because the resulting responses would be too small for analysis. Oregon uses more call back attempts, does not send reminder postcards, and oversamples for race and ethnicity. Oregon only includes the CAHPS Supplemental Item Set for Children with Chronic Conditions for children who are flagged in Oregon's claims data as having a chronic condition. Children who are not flagged in claims data as having a chronic condition receive the standard version of the child survey

consistently each year, irrespective of insurance coverage. Children through age 19 represent approximately 58% of the patients we serve in Oregon.

## Section IV. Program financing for State Plan

1. Please complete the following table to provide budget information. Describe in narrative any details of your planned use of funds below, including the assumptions on which this budget was based (per member/per month rate, estimated enrollment and source of non-federal funds).

(Note: This reporting period equals federal fiscal year 2019. If you have a combination program you need only submit one budget; programs do not need to be reported separately.)

### COST OF APPROVED CHIP PLAN

<b>Benefit Costs</b>	<b>2019</b>	<b>2020</b>	<b>2021</b>
Insurance payments	0	0	0
Managed Care	282542535	340364800	377499285
Fee for Service	58861646	67677490	72693120
<b>Total Benefit Costs</b>	<b>341404181</b>	<b>408042290</b>	<b>450192405</b>
(Offsetting beneficiary cost sharing payments)	0	0	0
<b>Net Benefit Costs</b>	<b>\$ 341404181</b>	<b>\$ 408042290</b>	<b>\$ 450192405</b>

<b>Administration Costs</b>	<b>2019</b>	<b>2020</b>	<b>2021</b>
Personnel	685429	391970	494131

Claims Processing	2170523	1241238	1564745
Outreach/Marketing costs	209179	436168	1167483
Other (e.g., indirect costs)	4072247	11456752	10862319
Health Services Initiatives	2220975	3792737	1740762
<b>Total Administration Costs</b>	<b>12214303</b>	<b>18952075</b>	<b>17888315</b>
<b>10% Administrative Cap (net benefit costs ÷ 9)</b>	<b>37933798</b>	<b>45338032</b>	<b>50021378</b>

	<b>2019</b>	<b>2020</b>	<b>2021</b>
<b>Federal Title XXI Share</b>	<b>342267331</b>	<b>360212446</b>	<b>394872895</b>
<b>State Share</b>	<b>11351153</b>	<b>66781919</b>	<b>73207825</b>
<b>TOTAL COSTS OF APPROVED CHIP PLAN</b>	<b>353618484</b>	<b>426994365</b>	<b>468080720</b>

2. What were the sources of non-federal funding used for state match during the reporting period?

- State appropriations
- County/local funds
- Employer contributions
- Foundation grants
- Private donations
- Tobacco settlement
- Other (specify) **[500]**

3. Did you experience a short fall in CHIP funds this year? If so, what is your analysis for why there were not enough federal CHIP funds for your program? **[1500]**

Yes, Oregon implemented qualified directed payments (QDPs) effective January 1, 2018, but were not able to charge CHIP appropriately until MMIS system updates were completed; and, then the state was able to re-finance CHIP eligible QDPs from Medicaid to CHIP as approved. The CHIP caseload is the other contributing factor. Since 2016, the CHIP caseload has steadily increased from 65,000 to 90,000 children as of July 2019.

4. In the tables below, enter 1) number of eligibles used to determine per member per month costs for the current year and estimates for the next two years; and, 2) per member per month (PMPM) cost rounded to a whole number. If you have CHIP enrollees in a fee for service program, per member per month cost will be the average cost per month to provide services to these enrollees.

### A. Managed Care

Year	Number of Eligibles	PMPM (\$)
2019	120997	\$234
2020	123512	\$255
2021	123606	\$268

### A. Fee For Service

Year	Number of Eligibles	PMPM (\$)
2019	11144	\$506
2020	11879	\$510
2021	12001	\$532

Enter any Narrative text related to Section IV below. [7500]

## Section V: Program Challenges and Accomplishments

1. For the reporting period, please provide an overview of your state's political and fiscal environment as it relates to health care for low income, uninsured children and families, and how this environment impacted CHIP. **[7500]**

Governor remains focused on Children's health care and reducing un-insurance across all populations. Oregon's triple aim vision is better health, better care, and lower costs. Oregon's Legislature continued support for our state funded coverage for immigrant children who would be uninsured without this support.

2. During the reporting period, what has been the greatest challenge your program has experienced? **[7500]**

Lack of community-based behavioral health supports for children creates wait lists for more expensive, out-of-area treatment, limited intensive services capacity diverts youth to inappropriate settings.

Implementing the ONE system, a single eligibility determination system for Medicaid and CHIP and other benefits

3. During the reporting period, what accomplishments have been achieved in your program? **[7500]**

Oregon's Legislature continued support for our state funded coverage for immigrant children who would be uninsured without this support. Immigration status is no longer a barrier to health coverage for children and teens in Oregon.

- Over 5,000 more children and teens now have full OHP benefits
  - 3,600 kids transferred from limited program into full OHP coverage ("OHP now covers me!")
  - 1,600 more uninsured kids newly enrolled in OHP in 2018
- OHA is increasing outreach to get more kids enrolled

Improved fee-for-service dental access

–New program offers financial incentives for Oregon dental providers to serve Oregon Health Plan members

- Fee-for-service rate increase, in conjunction with the dental incentive program above
- Inclusion of Teledentistry as a covered dental benefit
  - Allows for greater provider access throughout the state, particularly rural and frontier areas

4. What changes have you made or are planning to make in your CHIP program during the next fiscal year? Please comment on why the changes are planned. **[7500]**

No changes specific to the CHIP program in 2019. We continue to transform the delivery system with our Coordinated Care Organizations. This includes models using value based or alternative payment models, increased access and focus on Social Determinants of health for both Medicaid and CHIP populations.

Enter any Narrative text related to Section V below. **[7500]**
