Features	Medicaid Managed Care Program	Children and Adolescent Supplemental Security Program	Non-Emergency Medical Transportation
Notes: Program notes	Full duals are eligible for enrollment if there is a Medicaid-enrolled dependent child in the household. Nursing Facilities is covered by MCO for the first 30 consecutive days. The managed care P4P program is funded through a 2% withhold of each MCO's actuarially sound capitation payments for non-delivery DCHFP rate cells for the corresponding period. The 2% withhold is the profit margin for each MCO that is factored into the base per member per month payment rate. Actual P4P results are based on MCO experience during a performance year compared to the baseline. The baseline period used to set the target remains April 1, 2015 through March 31, 2016, with runout through September 2016. MCOs must meet the minimum threshold for improvement for all three performance measures in order to earn any portion of the withhold. From October 2016 to September 2018, DHCF's three full risk-based MCOs were required to meet performance goals in order to receive their full capitated payment rate. The capitation withhold was not in effect for the FY 2019 measurement year, though DHCF plans to reinstitute quality incentive requirements in future years.	Aged, Blind, or Disables children and adults are eligible up to the age of 26.	The DC Department of Health Care Finance pays for non-emergency medical transportation only for its fee-for-service members; non-emergency medical transportation for managed care members is paid by the District's Medicaid managed care organizations for low-income adults and children.
