

MAR 21 1991

6325 Security Boulevard
Baltimore, MD 21207

* * * * * IMMEDIATE ATTENTION REQUIRED * * * * *

NOTE TO: All State Medicaid Directors

The following information relates to the list I sent you on March 15 of manufacturers participating in the Medicaid Drug Rebate Program. For Hollister-Stier-Miles Pharmaceuticals, we show the labeler code 00018, the number provided by the company on its signed rebate agreement. After several States advised us that this number is incorrect, we contacted the company and it confirmed that their correct labeler code is 00118.

Please correct my March 15 list to show the correct labeler code of 00118 for Hollister-Stier-Miles Pharmaceuticals. The company is participating in the Drug Rebate Program effective January 1, 1991.

There are two other situations that you should be aware of:

1. Novo Nordisk Pharmaceuticals, Incorporated submitted a signed rebate agreement using the labeler code 00003. That labeler code belongs to E. R. Squibb & Sons, Incorporated which is designated on the Novo Nordisk product labels as the distributor. Even though we did not process the signed agreement from Novo Nordisk, please ensure that all drug products with the label code of 00003 are included. E. R. Squibb & Sons, Incorporated will process your drug rebate invoices for all drug products with the 00003 labeler code.
2. ICI Pharmaceuticals Group submitted a signed rebate agreement for labeler codes 00038 and 00006. Labeler code 00006 belongs to Merck Sharp & Dohme (MSD). We have ascertained that there is an agreement between MSD and ICI for ICI to have the exclusive right to distribute, market and sell Elavil amitriptyline. ICI has responsibility for no other drug product under labeler code 00006. MSD will process your rebate invoices for all drug products with the 00006 labeler code.

Please continue to refer your questions to us by calling the Drug Rebate Hotline at (301) 966-3249.

MAR 15 1991

Dear State Medicaid Director:

On March 8, I sent to you a list of manufacturers that are participating in the Medicaid drug rebate program. I also noted that I would advise you by March 15 of any additions to that list. Enclosed with this letter is a 3-1/2" diskette containing a list, by labeler code, of all participating drug manufacturers. The names, telephone numbers and addresses of the legal, financial and technical contacts for each labeler are included. A record layout for the data contained on the diskette is enclosed. Also enclosed for your reference is a hardcopy alphabetical list of the same manufacturers, showing simply the labeler code and manufacturer name and location.

The enclosed list includes 247 labeler codes, 20 more than the list I sent you March 8. In addition, several labeler code errors found on our initial list have now been corrected. It is very important, therefore, that you review the enclosed list carefully, as it represents our official list of participating manufacturers effective January 1, 1991.

As stated in my March 8 letter, Federal financial participation (FFP) in payments for the products of all manufacturers will be approved for the January-March quarter. However, effective April 1, FFP will be allowed only for drugs whose labeler codes are included in the enclosed list.

Also enclosed are revised descriptions of two definitions - "Unit Type" and "Units Per Package Size Code" - found on pages 4 and 5 of Enclosure C (Manufacturer Data Definitions) distributed on February 14 with the drug rebate agreement. We have clarified the data element definitions, added to the list of acceptable unit types, and provided more examples of "Units Per Package Size Code."

On February 14, I sent to you the rebate agreement materials released to manufacturers that day. I also enclosed a State Agency Contact Form which I asked you to complete showing your preferred technical and program policy contacts for purposes of the drug rebate program. You were also asked to list the drug labelers, if any, with which your State has an existing rebate agreement. Please check to make sure your State has sent us that information, as we have not yet received it from a number of States.

Page 2 - All State Medicaid Directors

For your information, we are developing a standard record layout for State use in sending utilization data to manufacturers and HCFA, and another that we will use to send data to you each quarter. The telecommunications and paper format States will be required to use in sending data to manufacturers will be mailed to you as soon as the Office of Management and Budget approval is received.

My staff continues to confer weekly with the State Systems Technical Advisory Group (S-TAG) on rebate program implementation issues such as standard record layouts and options for data transmission. The contributions of the S-TAG members and others of your staff who are working with us are greatly appreciated.

Please continue to refer your questions to us by using the Drug Rebate Hotline number at (301) 966-3249.

Sincerely yours,

Christine Nye
Director
Medicaid Bureau

DATA ELEMENT NAME: Unit Type

DATA DEFINITION: Basic measurement that represents the smallest unit by which the drug is normally measured. The rebate amount will be calculated per unit.

Example: For drugs that are dispensed in capsules or tablets, the Unit Type would be a capsule or tablet. The rebate amount would be calculated per capsule or tablet. For liquids, the Unit Type would be a milliliter. The rebate amount would be calculated per milliliter.

SPECIFICATIONS: Alpha-numeric values, 3 character field, left justified

Valid Values:

- AHF = refers only to Anti-Hemophilic Factor (AHF) units.
ML = Milliliter
OIS = Ocular Insert
PAC = Packet
PFV = Powder Filled Vials
CAP = Capsule
CC = Cubic Centimeter
SQC = Square Centimeter
GM = Gram
SUP = Suppository
KIT = use for products containing more than one dosage form.
TAB = Tablet
TDP = Transdermal Patch
MCI = Millicurie
UCI = Microcurie
UGM = Microgram
MG = Milligram
UM = Micromolar

DATA ELEMENT NAME: Units Per Package Size Code

DATA DEFINITION: Total number of units, as defined in the Unit Type field, in the smallest dispensable container or entity for the product defined by the full NDC.

SPECIFICATIONS: Numeric values, 10 digit field: 7 whole numbers and 3 decimal places.

Example 1: For a 17 microgram inhaler or aerosol, the unit type would be a UGM and the units per package size would be 17.

Example 2: For a tablet, regardless of the package size, the unit type would be a TAB and the units per package size would be 1.

Example 3: For a powder-filled vial, the unit type would be PFV and the units per package size would be 1.

Example 4: For a package of 12 suppositories, the unit type would be SUP and the units per package size would be 12.

Example 5: For a package of 6 transdermal patches, the unit type would be TDP and the units per package size would be 6.

Example 6: For a 100 ML ampule, the unit type would be ML and the units per package size would be 100.

Example 7: For a bottle containing 50 Cubic Centimeters of cough syrup, the unit type is CC and the units per package size is 50.

Example 8: For a package containing a mix of different unit types such as a tube of ointment and 3 suppositories, the unit type would be KIT and the units per package size would be 1.

****NOTE**** Examples 4 and 5 assume that 12 and 6 are the smallest dispensable entities. However, if a package contains multiple units which can be dispensed individually or in amounts less than the total units in a package, then the units per package size would be 1 in each example.

DATA ELEMENT NAME: AMP (Average Manufacturer's Price)

DATA DEFINITION: The Average Manufacturer's Price per unit per product code only for the period covered. If a drug is distributed in 3 package sizes, there will still be only one AMP for the product, which will be the same for all package sizes.

SPECIFICATIONS: Numeric, 11 digit field: 5 whole numbers and 6 decimal places. Compute to 7 decimal places, and round to 6 decimal places.

6325 Security Boulevard
Baltimore, MD 21207

MAR - 8 1991

TO: All State Medicaid Directors

SUBJECT: Medicaid Drug Rebate Program Participating Manufacturers
and Related Issues--ACTION

A list of manufacturers that are participating in the Medicaid drug rebate program effective January 1, 1991 is attached. I will advise you by March 15 of any additions to this list.

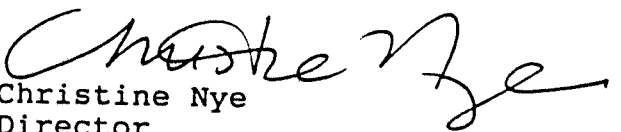

Please be advised that we are allowing Federal financial participation (FFP) for those drugs of non-participating manufacturers for the January-March 1991 quarter under the extenuating circumstance clause in section 1927(a)(3)(B) of the Social Security Act (the Act). However, effective April 1, FFP will be allowed only for those drugs of those manufacturers that have in effect a rebate agreement. Therefore, you must make changes to your list of covered drugs to include all covered drugs of participating manufacturers.

In order to assure that FFP is made available to your State effective January 1, 1991 under the new drug rebate program, you must also modify your State plan to bring it in compliance with sections 1902(a)(54) and 1927 of the Act (including the elimination of any restrictive formularies) and submit it to your HCFA regional office by March 31.

I also want to emphasize the importance of the proper use by pharmacies of the National Drug Code (NDC) number. Manufacturer rebate payments will be made based on State drug payment data by NDC number. In order to assure that the appropriate manufacturer is billed for the rebate, accurate records must be maintained by participating pharmacies and appropriate NDC codes shown on all drug claims submitted for payment. Inaccurate records may result in billing the wrong manufacturer for the rebate, disputes in the rebate due or increased audits of your agency by the manufacturers, and requests that you audit the records of the pharmacies. You must impress upon pharmacies the importance of taking whatever actions are necessary to correctly reflect the NDC number of the drug dispensed.

Page 2 - All State Medicaid Directors

I appreciate the time and resources that you and your staff have contributed in the successful implementation of this program. We will continue to keep you informed as the Medicaid drug rebate program becomes more operational.

Christine Nye
Director
Medicaid Bureau
